HOBBIES & INTERESTS

- Member of snooker club
- Supporting my friends soccer games
- Multiplayer games
- Learning new tech
- Brain trainers

ABOUT ME

Developer with a passion for web development and big data. Motivated to expand knowledge and skills with the latest technologies and frameworks.

Loves working on projects as a teamplayer in an agile environment. Focused on getting it right, and aware that small details can have a big impact.

WORK EXPERIENCE

October 2016 - May 2017 (8 months)

Consultant for CTG on behalf of Bridgestone Europe

I have worked on a project for Bridgestone as CRM Developer, customizing Dynamics 365 CRM with business logic. Like writing plugins in C# and building custom UI components and apps with TypeScript, Knockout.js and many more of the latest technologies.

March 2016 - May 2016 (3 months)

Internship at CiBLiS

Thesis project: Research and development of a custom Business Intelligence light web application.

EDUCATION

2013 - 2016 (3 years)

Professional Bachelor's Degree in Applied Computer Science

Application Development - Web & Mobile
